REMARKS

Claims 16-17, 21-34, 49, 51-52, 54, 56, and 58-60 are pending. By this Amendment, no claims are added or canceled and claims 30-31, 56, and 58-60 are amended, claims 18-20, 50, 53, 55, and 57 being canceled previously and claims 35-48 and 61-70 previously withdrawn pursuant to a restriction requirement. A listing of the pending claims as amended, where applicable, is enclosed as an Appendix.

60. (Twice Amended) A roof comprising the ventilator of claim 49 operably present at ~~a~~ the peak of said roof.

With respect to claims 30 and 31 (depending from claim 17), there is a single top panel recited in claim 17. Therefore, there can only be a single recited intermediate ply within the top panel. To this end, claim 30 is amended to recite a singular intermediate ply and correct associated grammar. The foregoing amendments to claims 30 and 31 correct antecedence, which does not narrow the scopes of these claims.

Referring to claim 56 (depending directly from claim 54, which, in turn, depends from claim 49), antecedence is corrected by reciting "corrugated material" in place of "corrugated sheet material," the latter not recited in either of claims 54 or 49. Applicant respectfully submits that the foregoing amendment, by correcting antecedence of the recited limitation, does not narrow the scope of claim 56.

The amendments to claims 58 and 59 (depending from claim 56), more particularly state that each of the first and second panels are interconnected and corrects the grammar to the singular subject of the phrase. Applicant respectfully submits that correcting for antecedent basis and for grammar does not narrow the scope of claims 58 and 59.

The amendment to claim 60 (depending from claim 49) corrects antecedence by referring to the peak recited in claim 49. Applicant respectfully submits that correcting antecedence of the foregoing claim limitation does not narrow the scope of claim 60.

No new matter has been added by the foregoing amendments to the pending claims. Applicant respectfully submits that support to correct for antecedence and grammar is not
